

DIGIPASS 250

Compact Size. Strong Authentication.

Looking to build a flexible security infrastructure that is easily accessible by customers and employees from anywhere and at any time? DIGIPASS 250 opens the door. The small and lightweight DIGIPASS 250 device offers secure remote access and authentication features in a streamlined design. It's the ideal password-protected personal identification device for banks and organizations needing an effective and cost-efficient, high-volume solution. In addition, the DIGIPASS 250 enables digital signatures for transactions.

STRONG TWO-FACTOR AUTHENTICATION

The DIGIPASS[®] 250 solution is based on strong two-factor authentication. To gain access to applications and services you must:

- 1) remember a Personal Identification Number (PIN), and
- 2) possess a hand-held DIGIPASS 250.

The PIN code is entered into the DIGIPASS 250 which then calculates a dynamic password. This one-time password enables authorized access into the network.

INTUITIVE USER INTERFACE AND ADVANCED DESIGN

Tough, shock-resistant materials make DIGIPASS 250 a reliable part of any total enterprise security solution. Its ergonomic keypad and simple graphic interface are so easy to use, no technical training or user manual is required.

Universally recognizable display icons walk you through the simple steps and there's always an option to return to the previous screen or restart from the beginning.

MAXIMUM FLEXIBILITY

DIGIPASS 250 can be customized to your specific applications. Security parameters such as PIN length, number of PIN trials, type of cryptographic algorithm, lengths of challenge and response, are all programmable. Result: you get an optimum balance of user-friendliness, cost-efficiency and security.

BANKING WITH DIGIPASS

VASCO's DIGIPASS 250 technology is used successfully in a wide array of application environments. VASCO[®] helps financial organizations around the world to cost-effectively face the challenge of online banking and trading without compromising existing infrastructures. Easy-to-use DIGIPASS 250 solutions provide highly secure and totally reliable e-banking services via phone, fax, and PC/Internet. In the process, these institutions have increased their existing customers' loyalty while offering potential new customers the benefit of heightened security.

LOW COST PUTS IT AT THE TOP OF ITS CLASS

In the academic world, e-transactions usually concern an exchange of information, not money. Nevertheless, the importance of security must not be diminished. VASCO's DIGIPASS 250 can provide educational institutions with highly secure solutions for guarding against breaches of confidentiality and unauthorized access to data. Further, VASCO's technology wins high marks for offering high functionality and flexibility at a low total cost.

MAKING INTERNET TRANSACTIONS MORE SAFE

DIGIPASS 250 technology enhances the security of your web-based services. Whether it is using DIGIPASS 250 dynamic passwords to log-on to a restricted web site or create digital signatures to sign a financial transaction, you have greater control over who is trying to perform what activity.

KEY FEATURES

- Internal real-time clock
- Intelligent battery management with expected battery life of 10 years*
- After a programmable number of invalid PIN attempts, device locks automatically
- Remote de-blocking
- Dual function on-off/erase button
- Limitation settings can be time-based or based on a maximum number of operations
- Electronic signatures guarantee integrity of transmitted data
- PIN in user-changeable
- Size: 75 x 46 x 13 mm
- Weight: 28 gr

CRYPTOGRAPHIC FUNCTIONS

- Conforms to the Data Encryption Standard (DES or triple DES) and Advanced Encryption Standard (AES)
- One-time password, challenge/response and e-signature functionality
- Supports applications all with their own AES/ DES key

* for devices produced as from 2011

CERTIFICATION AND COMPLIANCE

| | | |
|------------------------------------|--|---|
| Storage temperature | -10°C to 50°C; 90% RH non condensing | IEC 60068-2-78 (damp heat) IEC 60068-2-1 (cold) |
| Operating temperature | 0°C to 50°C; 90% RH non condensing | IEC 60068-2-78 (damp heat) IEC 60068-2-1 (cold) |
| Vibration | 10 to 75 Hz; 10 m/s ² | IEC 60068-2-6 |
| Drop | 1 meter | IEC 60068-2-31 |
| Emission | | EN 55022 |
| Immunity | 4 kV contact discharges 8 kV air discharges 3 V/m from 80 to 1000 MHz | EN 55024 |
| Compliant with European directives | <ul style="list-style-type: none"> • EMC: 89/336/EEC or 2004/108/EC • RoHS: 2002/95/EC • WEEE: 2002/96/EC | |

About VASCO

VASCO designs, develops, markets and supports patented DIGIPASS®, DIGIPASS PLUS®, VACMAN®, IDENTIKEY® and aXs GUARD® authentication products for the financial world, remote access, e-business and e-commerce. With tens of millions of products sold, VASCO has established itself as the world leader in Strong User Authentication for e-Banking and Enterprise Security for blue-chip corporations and governments worldwide.
